

PROGRAM OVERVIEW REPORT

REF: CHURCHES FOR CHRIST 2022 REPORT

To Whom It May Concern,

We are so excited to inform you about all that has happened with the C4C program. We thank God for all the progress.

1. Growth

Mbembesi Church of Christ began on 08 November 2021. Since the beginning of the year 2022, it was in a plateau stage while we were still hosting our services in maMoyos homestead. Once we got our land, we saw spiritual and numerical growth.

2. Leadership

So far, the church has no elders and deacons. The church had selected M4C coordinators and the building committee, who are taking the lead in most of the programs and projects in the church.

3. Preachers

Br. Nkosi's absence made the work very hard as Br. Dube was working alone most of the time, but we thank God that in July and August, we hosted Br. Sithole from Bear Valley Bible Institute during his practicum. He managed to go around the Mbembesi community, evangelizing and encouraging members of the church.

4. Construction

We were so blessed as we got our church stand which we managed to fence. As we were preparing to build, we made a temporary shelter which we use as a store room. We thank the team from Southwest Church of Christ who came and helped us in the construction of the kitchen and toilet.

5. Future Plans

We are looking forward to starting the construction of the pavilion next year. Moreover, the projects will resume next year. Therefore, please keep us in your prayers.

We praise the Lord for the work which was done in the year 2022. We also thank you for your prayers and your support financially, which made this program successful. God bless.
