

PROGRAM OVERVIEW REPORT

REF: HARVESTERS FOR CHRIST 2022 REPORT

To Whom It May Concern,

The year 2022 was a remarkable year for the Harvesters for Christ program. The African School of Bible Missions under the H4C program had three terms.

1. Demographics

The school was populated with twelve students at the beginning of the year; eleven were male and one female. At year-end, the school had eight students, six male, and two female students. All students are members of the church of Christ at different congregations in Matabeleland.

2. Academic Affairs

The Academic affairs department was involved in examination center registration in preparation for examinations that commence on the 23rd of November, 2022. Patience and Cathrine traveled to Harare for examination compilation and proofreading in preparation for examinations.

3. ASBM Student Activities

The students were involved in activities such as evangelism, preaching at different congregations organized by the spiritual life department, and helping with the Meals for Children program. The students were also involved in conducting chapel services. The students also had a movie day at the ASBM premises. This ensured that the students would practice the lessons they learned in class.

4. Future Plans

The school hopes to enroll more students in the future. Investing in staff development exercises would help mitigate the challenges faced in 2022.

We are eternally grateful for the support rendered by the church of Christ in the Harvesters for Christ ministry. The support will enable the church in Zimbabwe to be highly effective harvesters for Christ.

All glory to God.
