Eagerly Sharing Jesus Through Faith & Works

## WELLS4COMMUNITIES

The picture below might seem obscure to you, but it represents something very special to the Sipaba church. It indicates the presence of water! A surveyor visited our church stand, and was able to detect water beneath this rocky terrain. We were so overjoyed to learn that there is water beneath the church stand going as deep as 100 meters! Now that we know we have water, what is left is to begin the drilling process and install a bush pump. We are asking for you prayers with this project. This well will not only benefit the church, but the community as well. The community will be allowed to fetch water from the pump, but as they do so there will be someone on the church ground sharing the Living Water with them (John 4:14). The church also plans to use the water to begin their gardening projects.

## APPRECIATING THE SERVANT LADIES OF CHRIST AT SIPABA

The Bible is filled with ladies who were not only Christians, but also active members in the Lord's church and ministry from the likes of Lydia, Phoebe, Euodia and Syntyche. We are privileged at the Sipaba church to have so many women who are dedicated to the Lord's work. We want to take the time to shine the spotlight on them in this edition of our newsletter, and in the process ask you to keep praying for them to grow as they continue in the Lord.

First, there are the ladies who volunteer to cook meals for the community children twice every month. The feeding program is coordinated by the three ladies pictured above. From fetching firewood, water, and cooking over the fire, they make sure all the food is prepared and the kids are well fed. We are grateful for MaNyathi (left), MaNkomo (center), and MaNcube (right) for being lights in the community of Sipaba.

Secondly, we cannot talk about the history of the Sipaba church without mentioning Masgola (pictured on the right). She was there from day one as we were arranging and inviting people to our very first meeting. Not only did she help at the beginning, she also let us conduct our worship services first in her kitchen, then in her sitting room, and as the number kept growing, her yard. On top of all of this, she let us use her yard and kitchen to host the Sipaba feeding program. We are again grateful for her servant heart and commitment to the Lord's work. What a blessing it is to have these, and other ladies, in the church who are actively displaying their faith through their works.

# The Glovers' Transition

We are blessed to have William and Emily Glover on the Zimbabwe Missions team. Ever since they came on board in 2017, they have been vitally important to the work in Zimbabwe. During their tenure in Zimbabwe they were involved with the Amazon church of Christ and helped plant the Sipaba church of Christ. Not everyone can do what they did. Their sacrifice, leaving comforts, family, etc., to further the Lord's work in Zimbabwe is nothing short of encouraging. While in Zimbabwe, William served as the Deputy CEO at Zimbabwe Missions while Emily held the title of Secretary.

Although the Glovers will no longer be full-time missionaries on the ground in Zimbabwe, they will continue to strive to ensure the work at Zimbabwe Missions goes on. The Glovers will henceforth serve as stateside representatives of Zimbabwe Missions where they will be joining Kelley Field. Their primary role shall be fundraising and leading mission trips to Zimbabwe when needed. They will also continue to serve on the board of Zimbabwe Missions. Lastly, we all here at ZM are excited for the blessing of the new addition to their family! Continue to keep the Glover family in your prayers.

## WHEELS FOR THE ZM TEAM

We were both humbled and pleasantly surprised when we found out that the Southwest church of Christ, our overseeing congregation, had raised \$25,000.00 for ZM to purchase a work vehicle. We had made a plea after realizing that our current vehicles were no longer able to accommodate our current teammates. Coupled with our anticipation of future teams coming from the US, we quickly realized we would not have nearly enough room for everyone in our current vehicles, hence the plea for assistance in acquiring a van for work purposes. Our target was just \$12,000.00 - \$15,000.00, and Southwest far surpassed our hopes with their generosity! With these funds, coupled with \$8,000 from Stantonville church of Christ, we will be able to buy another small vehicle in addition to the van. We have already purchased a small, fuel saver (Honda Fit), and in the not so distant future we will be getting the blue van to your right. God is good indeed, and He is our provider (Philippians 4:19).
